--Psychology is a great study that don't get old, good for you future and is helpful teach others. Stress, perception, sensation, mental disorders and subject that help who you are, family members and family. Just wish it should not have gotten cut short. Thank you.

--This course has allowed me more insight into behavior issues and how to recognize the error in where they may arise. How to do an overall exam of oneself, and to possibly make changes to correct those defects.

--This is a very informative course, that each prison in the department of corrections should participate in. This should be a system that make sure that everyone on the list is in attendance. If a person want to come to do the course again he should be able to sign up again at the end of the course. Thank you for your time.

--This class was very interesting, I learned a lot of new things. I wish this class would've been a little bit longer. I will recommend this class to other inmates. Thank you.

--I enjoyed getting the opportunity to hear others take on how their minds work. I would've liked to hear about Pavlov's dogs. That would show a correlation of the criminal lifestyle and learned behavior. Something I like to analyze is why do/did the things I do.

--The best class I've been in at CRC. It was very inspiring and relaxing and motivates me to want to do more classes and programs and growth.

--I believe this course contributes to the overall wellbeing of all the participants. It demonstrates different forms of expression that are healthy. The volunteers were friendly, respectful, professional and informative. It was very inspiring to see and experience the compassion that the volunteers provided. I will be sure to follow their lead to contribute to humanity. I joined this class because if there is one thing I wish I did more while being incarcerated, it was to dance. From now on I will travel anywhere to dance. Thank you!!

--I greatly appreciate that this course is offered. It's much more than dancing. It allows us to look within to challenge ourselves and reflect within. Thank you.

--It was a blast and opened my mind to new experiences in dance. I would suggest it for all to do...to grow spiritually and mentally.

--This course was very creative, fun, educational, productive, positive. The skills I learned here I can very much use on a day to day basis not only when I am paroled but also while I am here. Thank you so much for teaching me how to diffuse highly risky situations.

**What are your overall thoughts about this class?**

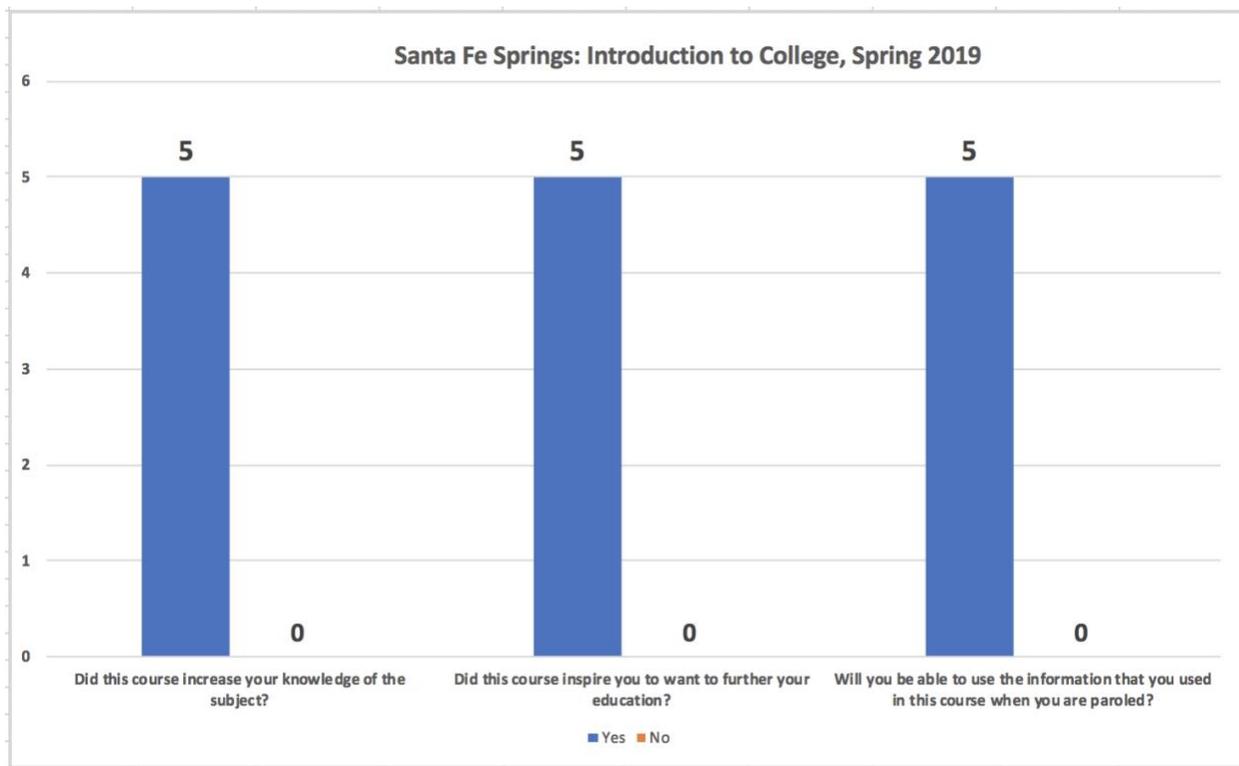

--This class challenges my abilities in ways few things do: mentally, emotionally, spiritually and physically. 'The majority of men live lives of quiet desperation and go to the grave with their songs unsung.' That written, this a caustic environment at best. Honestly, particularly around 'feelings,' is very risky here where image and perception dominate. My project bashed me between hope and mourning: future and past lost.

--This is a very amazing course, it not only is useful but is very mind opening to look at life's bigger picture and analyze its different ways of looking at things....It'll for sure help me with my future. --Thank you.

--I liked it, it made me think a lot. And art involved felt good for the soul.

--This course was very insightful. It taught me a lot about how to interpret and appreciate different types of art. I am very thankful for the class because it has given me the freedom to create without judging myself and my work.

--It was something new that opened my mind up to a new interest. Overall I really enjoyed the experience.
